Accessibility Statement

Last updated: 07/05/2025

Nestlé Health Science is committed to ensuring accessibility for all. We aim to continually improve the experience for everyone by applying the relevant accessibility standards and acting on feedback from users. We have considered accessibility in the development of this site by adding features which are compatible with assistive technologies.

We welcome your feedback. Please [contact us](#) if you encounter any accessibility barriers when navigating this site.

1. Conformance status

This site is partially conformant with [Web Content Accessibility Guidelines](#) (WCAG) 2.1 Level AA. Partially conformant means that some features or some parts of the content do not fully conform to the accessibility standard. For the features and content which may not be accessible, please see "Known Limitations" section below.

2. Measures to support accessibility

We are striving to improve accessibility by taking measures such as:
- ongoing remediation efforts to address accessibility barriers;
- partnering with an external accessibility agency for assessments; and
- regular accessibility testing and scanning of our site.

Here are some features you can use on this site to help you access our content more easily:

2.1. Magnification

You can use the magnification feature to zoom in or out of this page:
- If you are using a PC, hold down CTRL and scroll wheel or CTRL and + at the same time to zoom in, CTRL and – to zoom out.
- If you are using a Mac, hold down Option and Command and = to zoom in, Option and Command and - to zoom out.

3. Known limitations

Despite our efforts to ensure accessibility of our site, there may be some limitations, including:

- some PDF documents may not be fully accessible to screen reader software;
- some of our video and audio content may not have transcripts;
- some of our video content may not have captions;
- some pages may have color contrast issues;
- some headings may not follow the correct heading hierarchy; and
- some data tables may be missing table headings and scope attributes.

4. Browser compatibility

We designed our site taking into account compatibility of assistive technologies with major modern web browsers. For the best experience, and security, please keep your browser version up to date and take security measures such as installing anti-virus software.

5. Ongoing monitoring

We will continue to consider accessibility when developing new features, run periodic audits to assess our site against applicable accessibility standards and integrate feedback from users into ongoing improvements.

6. Contact for support and feedback

If you have difficulty viewing or navigating the content on this site, or notice any feature or content that you believe is not fully accessible, please contact us.
